Manufacturers Technical Specification

The manufacturer's Technical Specification for firefighter's protective clothing was based on EN 13911:2017 "*Protective clothing for firefighters – Requirements and test methods for fire hoods for firefighters*" for the end use of protective clothing to be worn during firefighting operations and associated activities. The suitability of this Technical Specification was checked with respect to the Essential Health and Safety Requirements of EU Regulation 2016/425, and was found to address the requirements for this end use.

Limitations of Use

- Usage, maintenance and storage as per manufacturer's instructions.
- The compatibility testing contained in Annex A of EN 13911:2017 was carried out using the following EN 136, type 3 facemasks:

Sabre Panaseal positive pressure facemask with standard rubber head harness

The end-user should ensure that the fire hoods are compatible with the particular equipment with which they are being worn. Some aspects of compatibility may be dependent on operational practices and it is the responsibility of the end-user to take this into account when issuing equipment.

Observations

- Not applicable.
